MAUI AND COMMISSION

Walluku, Sept. 20,-Last week Demcratic "Boss" Jas. L. Coke, one of the prominent attorneys of the Maui bar. sumed the role of a committee of one to invite the Senatorial Commission to come to Walluku for a few days and from here investigate the political, social, business, spiritual welfare of the Second Senatorial Dis-

Hon. H. P. Baldwin could not spare the time to go to Lahaina and join in extending the liberty of Maul to the Senatorial visitors, and Hon. S. E. Kaiue, President of the Senate, could not be found in time to join the junketing trip to Lahaina. The other offi cials of Maul did not wish to make the trip, as they did not care to undergo the most searching questions of Sena-tor Burton. So Hon. A. N. Kepolkal, who was at the time at his Kahulul fishery, bustly engaged in urging his fishermen to make one of the biggest hauls of bahalalu (young akule) that ver graced Kahului beach, was decided upon as the other member of the Valluku commission to go to Lahaina and board the steamer Claudine last See their ad. Wednesday, and in the name of the oons fide voters of this electorate invite the Senatorial Committee to come o Maui not necessarily Wailuku.

The committee left here last Wedpesday afternoon at 1 o'clock and Labains was reached in two hours and thirty minutes. On arrival at Lahains the two Walluku gentlemen urged upon several of the leading citizens of the Breadfruit Town of all political reeds to join them in extending the Co., Ltd., will be held at 6 p. m. today linvitation, but they all made excuses, Messrs. Coke and Kepoikai were introduced to members of the Commission at the Lahaina landing, and on arrival on board the Claudine, bound for Hawall, via Manlaca Bay, the committee renewed their invitation for the Commission to pay Wailuku a visit, so that they may have an accurate idea of Maul and not prejudge by what they may have seen either at Lahaina or Maalaca or Makena. But the Commissioners were steadfast in their be-lief that outside of Honolulu, Hilo was the only important town that required their presence, especially when the

As the Malolo has touched at Punaluu and Kahana, both places iv Koolau district, where okolehao distilling is carried out in a large scale, t is probable that the vessel is sus pected of having some of this "dew of the mountains on board.

Tacoma, Wash, Sept. 11. - Al hough charter rates have fallen eavily on foreign shipments, the car to trade of the State lumber mills has allen off about 30 per cent this year. There is no immediate prospect of an mprovement, but mill men are not in he habit of judging the future of their trade by statistics of the past. Cargo trade is the most uncertain element n the lumber business. It has been known to increase in a single year by too per cent and then to drop back again, apparently without cause, to former conditions.

South America are not ordering much overstocked, and buyers will have to unload before a heavy order can be placed again in this State. The demand was overestimated, and ship ments were heavy during the standard, when the Brinswick aggregation of ball tossers were defeated after a hotily contested game by a score of 10 to 9. There were speeches, toasts ments were heavy during the standard of the sta markets in those countries have been ments were heavy during last year and the season immediately preceding The close of the war in South Afri-

ca has not justified the predictions made of the effect it would have upon South Africa, but not sufficient to offset the loss of trade in other directions. The chief compensating features of the lumber business have been an immense rail trade and an increased deand from all California ports.

KNOX STUDIES CANAL.

Paris, Sept. 10.-Attorney General Knox sald today that the only thing that can be now given out regarding he proposed Panama canal purchase is hat he has under consideration many questions of law and fact bearing or supposed to bear upon the title of the

property.
"The intelligent investigations of Mr. Russell" (special United States Assistant Attorney General) ,sald Knox has greatly cleared the ground, and to not anticipate that many days wil now be required to finish the work neessary to the preparation of my re port and opinion to the President which will not be undertaken until eturn to Washington. The question of the gravest importance are those re ating to the legal concessions and the elations with the French Government, he nature of their title and dominion over their respective properties, and the legal bearing of the liquidation of the old company upon the affairs of

the new company." The Bulletin. 75 cents per month.

An accident unconnected with races came near marring the pleasure of Rethe lumber trade. There has been a gatta Day for everybody. Mrs. C. Bolman with her baby and three girls were in a small boat, which the boatmar tied up to the side of the tug Eleu while she was lying at Wilder's wharf. The tug started without warning and upse the boat, throwing the occupants into the water. Men at the edge of the wharf, assisted by others in boats rescued the woman and the girls, while he baby was saved by the extended hand of a bandman on the Eleu. I looked a serious business from the judges' stand when a man was seen to dive off the wharf after three dripping figures had been dragged up over th edge, but the band sariking up the tune "Aloha Oe" reassured all who witnessed the accident at a distance that no casualty had occurred.

LOOP-THE-LOOPER FELL.

Portland, Or., Sept. 6.-While trying to give the loop-the-loop act tonight at the Elks' Carnival, John Larson, the Minneapolis boy, failed to steer his wheel properly, and on the upward curve bounded off into the crowd. The rider was thrown thirty feet and struck several people. S. Ellsworth suffered a deep scalp wound and was taken to the hospital for the night. Two Portland men received slight injuries and a woman fainted. About 5000 people were watching Larson, and a panic nearly ensued. Larson was not injured, but did not attempt the ride
